

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

there is already numerous taxes and fees added to my land phone bill every month that are ridiculous. I do not need more charges for either cell or land line. I'm as senior citizen and my cell is strickly for emergency use.

Keep the USF Fair!

Sincerely,

Jean P. Corp 2760 Manuel Cir Lillian, AL 36549
